THE COURSE BROCHURE

Certificate of Competency Class 3 (Deck) Program

WERE YOU AWARE THAT.....

Sea cargo transportation takes 99% of the world cargo market and leaves about 1% only (by weight) for the air transportation industry. The recent boom in the global economy has driven the sea freight market high and the order books of most of the world's shipyards are full through the next 5 years.

There are 40,000 ships plying across the oceans, and numbers are expected to increase very fast. Each ship requires a Captain and three navigating officers. With the growing demand for new ships, there is expected to be a shortage of officers globally. Our course leads the students through a structured training program preparing them for their first professional certification at sea – Class 3 (Deck) Unlimited certificate.

COURSE OBJECTIVES:

At the end of this course, participants are able to safely, efficiently and competently carry out the watch keeping duties on board merchant ships both at sea and in port. They will be conversant with the basic principles as per STCW Regulations VIII/2 & STCW Code Chapter VIII.

COURSE CONTENT:

The course is conducted over 3 stages, as follows:

STAGE 1: Pre Sea Program (PSP)

3-months duration, conducted on board our

This course is accredited by Maritime NZ and conducted by Institute of Maritime Education & Training Pty Ltd, Australia.

The certification acquired is a world class certificate and in compliance with the requirements of the International Maritime Organisation as well as the relevant sections of the Standards of Training, Certification and Watchkeeping (STCW) for Seafarers, 1978, as amended.
